16% IMPROVED MILEAGE

BS-VI COMPLIANT

ATTRIBUTES OF THE New 125cc Fi ENGINE

The Smart Motor Generator eliminates the sound of meshing gears, achieving a silent start every time.

When certain conditions are met, the Stop & Start System automatically stops the engine when the vehicle is at a stop and idling, thereby helping to save fuel. The rider can easily re-start the engine and get underway again by simply twisting the throttle, which quickly fires up the engine again.

POWER

ASCENT ACCELERATION

Drive force at the rear wheel at low speeds has been improved by 30%.

STANDING ACCELERATION

The boost in acceleration from 0 to 200 metres results in an advantage equivalent to more than seven bikes in length over the current model.

PASSING ACCELERATION

Power in the 30-60 km/h range, pivotal for overtakes, has been improved by 30%.

30%
MORE POWER

MILEAGE

The all-new Fascino with BS-VI engine boasts an increase in mileage by 16%, thanks to the Smart Motor Generator system and Stop & Start system.*

16%
IMPROVED MILEAGE

*16% improved mileage compared to current model.
